

CAREER OPPORTUNITY

# Master Data Management Specialist (SAP)

ALMERE (NL)

Join **YANMAR Marine International**, a reliable partner when it comes to delivering outstanding on-water experiences. We have an unwavering **commitment** to our customers, resulting in a significant **growth** in our order intake over the recent years. We are the **global market leader**, but we still have a pioneering mindset and are dedicated to serving our customers optimally. In order to do this, we need our **data** to be well **stored, updated and organized**. This ensures faster service, and easier cooperation throughout YMI. Therefore, we are looking for a Master Data Management Specialist that manages our **SAP master data**. Are you ready to use our SAP to the full potential and help our people, organizations and customers? Join our dynamic team!

# ABOUT YANMAR

Everywhere around the world you will find YANMAR solutions: at SEA, on LAND, and in the CITY. We specialize in designing and producing top-of-the-line engines and cutting-edge machinery. To provide powerful solutions that meet the challenges customers face today in order to realize our mission: 'A SUSTAINABLE FUTURE'.

## Global player

With beginnings in Osaka, Japan, in 1912, our ambition and commitment to growth is rooted in our long history as a global player. For over 110 years, we have been driving innovation in our industry. In fact, back in 1933, we were the first company to develop a commercially viable compact diesel engine. With over 25,000 employees worldwide, we are a global force in the industry.

## Innovation

At SEA, we are leading the way in developing sustainable propulsion solutions and exploring hydrogen-based power. On LAND and in the CITY, we implement electric batteries for industrial machines and power generation. And when it comes to autonomous products, YANMAR robots work in French vineyards and unmanned robot tractors drive in Japan.

## YANMAR Marine International

YANMAR Marine International (YMI) in Almere, the Netherlands, near Amsterdam, is YANMAR's global headquarters and a leading supplier for the marine recreational engine business. Our innovative engines and technology driven marine propulsion systems are setting new standards for the industry as the world's cleanest, most efficient, reliable and durable diesel engines for the recreational sector both.

VACANCY

# What are you going to do?

As our new Master Data Management Specialist, your role is very diverse. Your main areas of responsibility are to translate business objectives and requirements into functional and system specifications (ERP SAP S/4HANA), and managing the creation, implementation and maintenance of master data management solutions that to make optimal use of the system's capabilities. You support your 9 other colleagues in the Supply Chain and Sales Planning Team, and as well ensure that others can use the system to its full potential. The ERP system is the backbone to all of YMI's operations. It's a focal communication point for sales, back office, the workshop, procurement etc. These can only function well when all data of the systems fall into place, which is what you will do.

## Your main tasks and responsibilities

- Clean the ERP system data;
- Ensure the ERP system is used to its full potential, incorporating pricing processes, reports and dashboards;
- Take care of a full backlog, configuration and setting up a priority list;
- Provide guidance and support to colleagues and other stakeholders so that they can use the ERP system in the best way possible, and understand it better;
- Create manuals for colleagues and (internal) stakeholders;
- Give input on the development roadmap to improve the usage ERP system throughout YMI's operations.

## PROFILE

# Who are we looking for?

Our ideal Master Data Management Specialist thoroughly knows how ERP systems work and can elevate current practices. You should be analytical, hands-on and communicative. You should be able to oversee the entire ERP system, but also assist others in working with it. You need to be stress resilient as you will work on the system intensively and communicate with many co-workers.

### The ideal candidate

- Bachelor in business or computer science;
- Multiple years of experience in working with master data management;
- Knowledge of and/or experience with ERP systems (preferably SAP (S/4HANA)), knowledge of BPM, CRM and BI-tools, and experience with presenting data and using dashboards is a plus;
- Proficient in structuring information in a process framework, analyzing processes and improving and automating workflows, as well as developing business operations and systems;
- The following (mindset) qualities apply to you: flexible, hands-on, attention to detail, collaborative, analytical, investigative, pro-active, drive to improve, result-oriented;
- Strong language skills, fluent in both spoken and written English..

### Work location

Your regular workplace is Almere, but hybrid working (40% home/60% office) is possible in this position.

OFFER

# What do we offer?

In this position as a Master Data Management Specialist you fulfil a key position within the team and make it possible for everything to run smoothly. Everything and everyone will profit from your work, both people within and outside YMI. You are of absolute value in our goal to deliver the most efficient, reliable, and durable products. We offer a position in a truly international organization, with respect for each individual's culture and room for individual development. A job in a dynamic environment, where every day is different. Freedom to take initiatives and express ideas. Motivated and open colleagues that will be pleased to welcome you. YANMAR is a stable and solid employer.

## Employee Benefits

- ✓ A competitive salary matching your knowledge and experience;
- ✓ Possibilities to work from home;
- ✓ Standard working week of 37.5 hours, with flexible working hours;
- ✓ The possibility to follow training and education;
- ✓ Commuting allowance;
- ✓ 27 vacation days (+the ability to build up time for time);
- ✓ 8% holiday allowance, year-end bonus bases on company results;
- ✓ Good pension scheme and collective health insurance.

“To add value to the company through our supply chain and sales planning activities is what drives me every day at work. The backbone of adding value through these activities is up-to-date and accurate master data. The management of this master data is connected to every department in our organisation and therefore you can make a difference directly for almost every colleague. At the same time, this makes the work diverse and challenging. Therefore, we are looking for a new colleague that is committed to gain ownership of the role and ready to improve the organisation as a whole. The rest of the team is already eagerly waiting to meet you in order to solve the main challenges together!”
